Fall Checklist Hints for Good Gardens

Bulbs top the planting list this month. Daffodils and Tulips are prolific color producers and should be used extensively.

Lawns can still be planted in most areas. For maximum seed germination, be sure to keep moist.

It's too early to prune berries and grapes. Give them another month at least before going at them with the shears.

You find the early bird Sasanqua Camellias coming into bloom now. Plant them for a longer Camellia season.

Annuals should go in without delay to get winter color. Check nurseries for those best for this area.

Use classified. Call DA 5-1515
